STYLE MMR22-1800

Product Type: 1800F Cloth Reflective

Style Width: 40”

Maximum Service Temperature: 1800°F

Short Duration Radiant Service Temperature: 3000°F

Weight: 22 oz/yd²

Thickness 0.027”

Treatment: Reflective Composite

Roll Length: 50 yards

McAllister Mills MMR22-1800 offers a radiant heat barrier for high temperature environments. A composite layer of aluminum is incorporated on the fabric’s surface to maximize radiant heat reflection and protection.
